

Marc Matthys, BEL, #28 (2016)

Dear Maria,

Congratulations with your very well organized and challenging event. You and your crew are doing a fantastic job! Please congratulate them.

As I already told you, I was not able to finish as I had no sleep at all the night before. My mistake, I should have looked for another hotel after the first bad night there. Too late, but a reminder for the future.

As an experienced athlete this should not have happened. On Wednesday and Thursday I explored the entire run course, partially by running/walking and partially by mountainbike. I also explored the last 60km of the bike course. All to be well prepared ...

I'm disappointed in myself and was looking for another race as my mind and body are ready.

But I decided to do a middle distance local race this Sunday and then prepare for Elbaman (Italy) on September 25.

I will certainly register again for the drawing in order to enter your event in 2017. Maybe I'm lucky again.

Kind regards and hope to see you again once.

Marc
