

Ben Terje, NOR, #90 (2016)

Thanks to all of you to put up such a magic event.

After completing Norseman in 2014 and Swissman in 2015, there was only one left in AllXtri family - Celtman. If you win in the lottery to get at start ticket for such a long and special triathlon, you can say you have a little luck, but I did not get start ticket to Celtman this year! What do you do then, when the target just "disappears"? I start searching the web to find another event ... Austria eXtreme Triathlon then suddenly appeared and I send in an application for fun and after a few weeks came the reply – YES!

Here is a brief reference from my Best Supporter and my wife Lisa, about a little bit of the journey:

Running was heavy, heavier and heaviest, it was hot sun, rain, extreme rain, snow, wind, a few small "nice" glaciers, coal dark, bad headlamps, cows, horses, donkeys, smiling people, people who cheered, children with chocolates, gorgeous scenery, cut off times that were disturbingly close, convulsions, worry, relief, 125 runners and 71 of the goal.

My goal was to race Austria eXtreme Triathlon with a good experience. Thanks to my support team and my wife who accompanied me the last piece, I managed to reach my goal, 30 minutes before the deadline and could get my well deserved Finisher T-shirt :)

A big thanks to the organizers and the CREW for a nice day and a top event and congratulations to all the participants who attended this extreme Event in the mountain of Austria :)

Ben-Terje Moen – NUMBER 90 and 100% happy to survived AutXTri 2016!
